Chrome Web browser is optimal for this training

- Special Needs Plan (SNP) Model of Care (MOC) training is required initially and annually by the Centers for Medicare & Medicaid Services (CMS) for care providers who treat members in SNPs.
- A SNP is a type of Medicare Advantage plan that provides targeted care, improved care coordination and continuity of care to members with special needs.
- You are considered to be a SNP care provider if you treat members who are enrolled in a SNP, even if you treat just one SNP member.
- One clinical or non-clinical staff member of each practice, clinic or medical group may take the training and communicate the information within the practice.

Thank you for being a valued provider to our Steward Health Choice Generations members.

Sincerely,

Steward Health Choice Generations Network Services
