

# NOTICE: Integrated Care Management Plan Survey

Greetings!

Health Choice Arizona's Recover Wellness Team prepares and emails Integrated Care Management Plans to the health home care team for our members with Serious Mental Illness (SMI). Our goal is to support our providers in delivering integrated care to our shared members. We provide these care plans to the member's care team in order to:

- Share utilization information that will help the care team in making treatment decisions,
- Provide the care team with the names and contact information of all treating providers, to facilitate coordination of care, and
- Call attention to any risks that we are able to see at the health plan level.

We want your feedback!

Please take a few minutes to respond to this short satisfaction survey (sample care plan can be found within the survey for reference). In total, this survey is expected to take approximately 10 minutes. We want our care plans to be useful to you. We will use your responses to improve the services we deliver to you and to our members.
