

# NOTICE:

## Attention Providers: Please note revisions to the Prior Authorization Guidelines effective 3/1/2019:

The Prior Authorization Grid contains newly approved HCPCS codes for certain medications previously listed with an unclassified J code such as J3490 or J3590.

There is no change in the status of prior authorization requirement for these certain medications.

If a prior authorization was previously required under an unclassified J code then the medication will continue to require a prior authorization under the newly assigned HCPCS code.

Prior Authorization Guidelines are available for review at our Steward Health Choice websites:

<https://www.stewardhealthchoiceaz.com/>

<https://www.stewardhcgenerations.org/az/>

If you have any questions or concerns, please contact your Network Provider Performance Representative.

Sincerely,

Provider Network Operations
